BENEFITS OF THE LEAF GUARD gutter♦clean®

40 year clog-free warranty

No more clogs! Leaves and debris remain out of rain gutters so they can function at all times. Alu-Rex is the only product to guarantee that your rain gutters will not clog for 40 years.

Sturdy aluminum construction

Weatherproof aluminum will not rust, crack, chip or warp. The Gutter Clean System® can resist the weight of snow, ice and ladders.

Prevent water infiltration

When rain gutters are clogged by debris, water can infiltrate the home or collect on the ground near the foundation.

No need to reposition the product season after season

The Gutter Clean System is sturdy and solidly fastened to the rain gutters. It resists the weight of snow, ice and ladders. Unlike other products that become bent or blow away, the Gutter Clean System will stay in place season after season.
