

double  pro™

MICROFILTRATION CONTINUOUS HANGER™

THE STANDARD. **MADE BETTER.**

AVAILABLE NOW

DoublePro is a dual-action gutter protection system.

It is built to stand up to the worst weather conditions in Canada and keep your gutter free of ice and debris year after year.

360° LIFETIME WARRANTY:
MATERIAL, STRENGTH AND CLOG-FREE

 **eclipse™** TECHNOLOGY

The double membrane keeps debris from getting inside the gutter. The offset holes make it the perfect filter, allowing water to drain freely while blocking pine needles and leaves without ever getting clogged.

 **vortex™** TECHNOLOGY

The suction created by the two membranes makes it possible to drain three times more water than ever recorded in the heaviest storms. The inner membrane draws water through the wider holes.

 **roll@back™** TECHNOLOGY

This technology sends excess rainwater back into the gutter for truly high-volume drainage capabilities.

 **winter ❄️ shield™** TECHNOLOGY

Wintershield stops ice from building up and in the gutter, protecting it from warping caused by freeze/thaw cycles. That way, water flows through the gutter rather than into your home.
